League City staff members and City Management collaborated to develop a mission statement regarding the role and purpose of City government, along with a set of organizational values to guide the SERVICE of the City’s workforce.

**MISSION**
Providing extraordinary SERVICE to create and sustain a historic, dynamic and prosperous community.

**SUSTAINABILITY**
Optimizing available resources to maintain and improve quality of life.

**EXCELLENCE**
Reflecting who we are, our values, and our distinctive performance by consistently surpassing expectations.

**RESPECT**
Appreciating, valuing, recognizing, and caring about what our team and community has to offer.

**VALUE-DRIVEN**
Exhibiting a high degree of stewardship and accountability.

**INTEGRITY**
Doing what is ethically and morally correct because it’s the right thing to do.

**CUSTOMER-FOCUSED**
Accessible and responsive to customer needs according to our values with a focus on what is best for all.

**ENGAGED**
Communicating effectively with external and internal stakeholders to create an environment of trust and collaboration.
In 2018, Council, the Mayor, and City Management collaborated to develop a Strategic Action Plan for the City of League City. The framework of the plan consists of a vision statement for the City’s future, eight critical success factors that are necessary for success, and eleven strategic initiatives to guide the work of City staff over the next three to five years.

**Vision Statement:** League City — the best place to live, work, and play.

### Critical Success Factors

**Develop and Maintain our Infrastructure**
The City of League City carefully plans and maintains infrastructure (water, mobility, drainage) that supports the future needs of the City. City facilities are regularly updated and replaced to meet growing community needs. The City sustains and maintains a regulatory compliant water supply for all residential and commercial customers and works to improve drainage to minimize the adverse effects of extreme weather.

**Initiative 1:** Secure water supply for buildout and implement Water Master Plan

**Initiative 2:** Continue to refine and utilize the Master Mobility Plan so as to improve traffic flow

**Financially Sustainable**
The City of League City is guided by sound fiscal policies that support the City’s reputation for excellence in budgeting and financial reporting. An excellent bond rating ensures that the City is able to construct infrastructure improvements at the most financially advantageous rates.

**Initiative 3:** Develop a long-term financial plan to reduce tax and debt burden on residential property owners

**Safe and Desirable Community**
League City is known as a safe and desirable community. Quality amenities support the lifestyle of City residents who continue to move here for excellent schools and recreational resources. Residents and businesses know they can count on the City to ensure a safe community through its outstanding, community-oriented Police department, responsive Fire and Emergency Medical Services (EMS) and comprehensive emergency services during times of extreme weather.

**Initiative 4:** Maintain emergency response times

**Quality Community Amenities**
League City parks, library, and animal control systems keep pace with the needs of a growing community. Walking/biking paths connect neighborhoods with regional parks and attractions, and the City has appropriate rules to ensure Homeowners Association Parks are kept up-to-date.

**Initiative 5:** Focus on acquisition of new land and development of existing land for facilities, recreation programming, and trails as outlined in the Parks Master Plan

**Initiative 6:** Explore and create opportunities for development along Clear Creek, as well as utilization of detention, retention, and drainage easements

**Initiative 7:** Build a new animal shelter, as approved by Council, with a focus on community involvement through volunteerism, outreach, and education.

**Trained, Committed, and Valued Workforce**
League City employees are valued and recognized for the role they play in providing services to the community. The City has a competitive total compensation philosophy and recognizes employees who live out the organizational values every day. The City has developed a robust learning environment that supports certifications, training, and career and leadership development. The organization and community are well-served by an organization that anticipates and plans for orderly succession as employees retire from the City.

**Initiative 8:** Enhance the employee recognition program that includes incentivizing staff innovation and recognizing “S.E.R.V.I.C.E.” values

**Engaged Residents**
League City residents recognize their role in establishing a thriving community and staying engaged with their City government. The City has developed a robust communication and engagement plan that encourages participation from all demographics of the community.

**Initiative 9:** Develop a Citizen Survey

**Economic Development and Tourism**
League City has worked hard to develop a diverse tax base and is a growing center for commercial businesses and offices. People from outside League City look for opportunities to visit the quality amenities and attractions that make League City more than a bedroom community, employment center and shopping destination.

**Initiative 10:** Continue to identify and target potential investors and partners to create entertainment venues by offering a fast-track process and economic development incentives

**Quality-Built Environment**
The City plans for a quality-built environment as available land is developed and existing properties are redeveloped. Regulations support attractive development that decreases the volumetric effect of storms and flooding on homes and buildings.

**Initiative 11:** Implement comprehensive enhanced development standards that address aesthetics, flood risk, site planning, and energy (LEED)
Acknowledgements
Special thanks are due to all the city employees who contributed to this project.

Mayor and Council
City of League City, Texas

Dear Mayor and Council,

Transmitted herewith is the Capital Improvement Program (CIP) for Fiscal Years 2021 through 2025. This five-year plan to repair, build and strengthen League City’s infrastructure is guided by the priorities outlined in the 2018 Strategic Plan adopted by Council July 10, 2018. Projects are included to develop and maintain our infrastructure, construct quality community amenities, maintain a safe and desirable community, and do so in a financially sustainable manner.

The FY2021-2025 includes new projects identified in the 2019 updated Parks and Trails Master Plan, Master Mobility Plan, the Future Land Use Model, and the Water and Wastewater Master Plan. Through long range planning, we are looking to provide the resources necessary to support the growth of the city, provide services at the level that the community desires, and position ourselves to partner with other agencies to support our transportation initiatives.

**FY2021-2025 Capital Plan**

The FY2021-2025 Capital Improvement Plan (CIP) includes $441.51 million of investment in League City’s infrastructure, parks, and municipal buildings over the next five fiscal years. Improving our supply and distribution system, the CIP places these tasks foremost among the investments laid out in this plan; the Water program represents 31.6 percent of the total dollars in the CIP.

Tax supported programs provide $243.34 million, or 55 percent of the total, and water and wastewater revenue supported programs provide the $198.17 million, or 45 percent of the balance of the five-year program.
Tax supported programs in the FY2021-2025 period are primarily composed of core infrastructure and essential functions including streets and traffic ($93.76 million or 38.53 percent of tax supported total), reinvestment in streets, traffic, drainage, and facilities ($51.41 million or 21.13 percent), and drainage ($70.94 million, 29.15 percent). Parks represents another 7.31 percent, ($17.79 million) and the revitalization of downtown totals $3.97 million (1.63 percent). Expansions to existing Fire facilities are planned in the Fire program ($3.91 million or 1.61 percent). The Police program at ($1.56 million or 0.64 percent) includes Phase 2 of the Animal Adoption Center which will add an additional parking lot and sound wall for the residents near the Adoption Center.

On the revenue supported side, water is the City's single largest program in the five years covered by this CIP. With a proposed five-year investment of $198.17 million, water projects are $139.61 million and make up 70 percent of the revenue supported program total. Wastewater's $58.56 million program is the other 30 percent of the total.

**FY2021 Capital Budget**

The FY2021 capital program includes $95.31 million in funding for 104 projects, including 76 tax supported and 28 utility projects. The FY2021 program includes $16.64 million in continued reinvestment in sidewalks, traffic signals, asphalt and concrete roadways, general facilities, and park facilities. Also included is $17.57 million in the street and traffic program with improvements to the Walker Street corridor solely funded with TIRZ 2 cash and environmental and land acquisition for the extension of North Landing. The drainage program is funded at $22.27 million in FY2021 to mainly implement projects from the May 2019 GO Bond election. The Police program totals $150,000 for the design of Phase 2 of the Animal Adoption Center; adding an additional parking lot and a sounds wall for residents in close proximity of the new facility. The FY2021 Fire program totals $400,000 for the design of dormitories and a bay expansion to Fire Station #5. The Parks program totals $3.7 million in FY2021 and includes funding for 18 projects, many of which have anticipated grant funding in the amount of $500,000. Construction of the Hometown Heroes 5k Loop & the East Side Dog Park are anticipated in FY2021 along with FM270 Boat Ramp, Nature Center Pond Bank Erosion, Bayridge Park Redevelopment, Clear Creek Nature Center Prairie Restoration, and Lynn Gripon Mountain Bike Course. The Downtown Revitalization program comprises $2.8 million for the Main Street project in FY2021.

The utility revenue supported program continues the investments in water distribution and supply projects. Key projects in FY2021, include $19.91 million for design and construction of 36-inch waterline from SH3 booster station to South Shore Harbour booster station, $1.15 million for the construction of Dickinson Ave GST & Generator, $880,000 to construct North
Service Area 12" Waterline along Grissom, $2.25 million allocated for annual waterline upgrades and replacements, and $2.72 million for SEWPP Treatment Improvements.

**FY2021 Funding**

The Tax Supported FY2021 CIP funding sources totaling $63.54 million are detailed in Table 3 in the CIP Overview on page 7 and include previously sold COs, reinvestment cash, park dedication funds, TIRZ 2 cash, HOT fund cash, Galveston County 2018 Bond issue funds, 4B Corporation sales tax funding, anticipated grant funding, and future GO bond sales.

The Revenue Supported FY2021 CIP funding sources include $31.77 million detailed in Table 4 on page 8 of the CIP Overview. Funding is programmed from previously sold COs, cash from the Utility Fund, water and wastewater capital recovery fees, and future debt sales.

I would like to thank the City Council for your support and look forward to implementing this Capital Improvement Plan with you and City staff.

Respectfully submitted,

John Baumgartner
City Manager
